Waterbury, VT

People

- Architect: Joseph Architects LLC, Waterbury, VT
- General contractor and erector: BreadLoaf Corporation, Middlebury, VT

Products

- Murox High Performance Building Systems manufactured 77,500 square feet of load-bearing panels.
- The exterior wall panel finish is roll-formed Stelcolour 8000 + Series™ steel sheet painted Stone Grey (QC-8305) and Tan (QC-8315). Doors and aluminium framed windows with low-E thermal panes were plant installed.
- Canam Steel fabricated 450 tons of joists, trusses, structural steel and steel deck.

Highlights

This project features a roof height of 61 ft. 4 in. and required two stacked wall panels and a mezzanine with live load capacity of 175 psf.

The project also required tapered cruciform shaped columns and modular canopies which were fabricated by Murox High Performance Building Systems.
